SKILLS

- **Languages**: Python, C, C++, Java
- **Technologies**: HTML and CSS
- **Tools/Platforms**: MS Excel, Power BI
- **Soft Skills**: Communication, Problem-Solving, Adaptability, Time Management, Teamwork

PROJECTS

Social Media Usage vs Productivity Dashboard | **GitHub** — Nov '25-Dec '25

- Developed an interactive multi-page Power BI dashboard to analyze the impact of social media usage on productivity, behavioral patterns, and health indicators
- Created KPIs, charts, slicers, and advanced visuals to analyze productivity, stress levels, burnout, sleep hours, and digital discipline
- Increased Generated data-driven insights and recommendations to improve productivity.

Tech Stack: Power BI, Power Query, DAX, Data Visualization, Data Cleaning, Data Analysis

Financial Fund Advisor AI Chatbot | **GitHub** — Mar '25-May '25

- Designed an AI-based financial advisory system aimed at guiding users on fund saving and basic financial planning
- Developed the chatbot using Python, HTML, CSS, and JavaScript, collecting user inputs (age, salary, job) and integrating the Gemini API to generate personalized financial suggestions
- Achieved an effective recommendation accuracy of 90%, improving user decision-making in savings

Tech Stack: HTML, CSS, JavaScript, Python

Climate Analysis of Madrid City| **GitHub** — Mar '25-Apr '25

- Analyzed climate patterns of Madrid to identify long-term temperature changes, rainfall variations, and seasonal trends
- Built an interactive data dashboard using Python, Pandas, NumPy, Matplotlib, Seaborn, and other libraries, and implemented predictive models to forecast future climate behavior
- Delivered data-driven climate insights with a prediction accuracy of 95%, enabling clear visual trends

Tech Stack: Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

TRAINING

Mobile Application Development using Flutter | Cipher Schools | Link — Jun '25 - Jul '25

- Trained in mobile app development through online Flutter classes offered by Cipher Schools, covering the foundational concepts of UI, widgets, state management, and app workflow
- Produced a campus-level Food Ordering System application using Flutter and Dart, implementing user interfaces, menu listing, cart functionality, and simple order flow
- Delivered a fully functional prototype that improved ordering convenience for students and demonstrated strong practical skills in cross-platform app development

Tech Stack: Flutter, Dart, Android Studio, UI Development, State Management

CERTIFICATES

- Computational Theory: Language Principles & Finite Automata Theory – Infosys Springboard | **Link** — Aug '25
- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM – Infosys Springboard | **Link** — Aug '25
- Cloud Computing – NPTEL | **Link** — Apr '25
- Software Design and Project Management – Coursera | **Link** — May '24
- Software Engineering: Implementation and Testing – Coursera | **Link** — May '24

EXTRACURRICULAR ACTIVITIES

- Participated in a community development project with the Care Club Foundation, contributing to social outreach and local improvement initiatives. — Jul '24
- Competed in the Code-a-Haunt Hackathon, collaborating on innovative problem-solving — Mar '24

EDUCATION

- **Lovely Professional University** — Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.87*** — *Since Aug '23*
- **Sri Chaitanya Junior College** — Hyderabad, Telangana
  Intermediate; ***Percentage: 88*** — *Apr '21 – Mar '23*
- **Paramita High School** — Karimnagar, Telangana
  Matriculation; ***CGPA: 10*** — *Apr '20 – Mar '21*
